

Technical Data Sheet

AF-601

Ingredient	Fatty acid esters
-------------------	-------------------

Warranty	12 months (kept in a cool, dry place at room temperature)
-----------------	---

Applications	AF-601 is used in papermaking wet-end. <ul style="list-style-type: none">● Production technology of cardboard, corrugated paper and other paper types● Suitable for production processes using dry strength agents and sizing agents
---------------------	---

Features	<ul style="list-style-type: none">● The product has low viscosity and is suitable for pumping addition● Applicable white water temperature 45~60℃● Good degassing performance● The product disperses easily in water
-----------------	---

Physical indicators	
Exterior	Yellow or brown liquid
Solid content	100%
pH value	6.0-9.0
Viscosity, 25℃	<1000mPa.s

-
- Instructions**
- It can be added directly and is not recommended for dilution.
 - Paper consumption per ton 100~500g. The optimal addition amount is determined according to the actual situation on site.
 - The adding point for the papermaking wet-end is usually the white water pool under the net or the white water tank outside the machine.

-
- Precautions**
- There are no fatal or harmful ingredients to the human body, but try not to touch it directly or use it if it accidentally gets into the eyes, rinse with clean water
 - Storage at room temperature (5-40°C), away from direct sunlight
 - Refer to the product's Material Safety Data Sheet (MSDS) before use

Usage ● Not for human injection

restrictions ● This product is not tested or represented as suitable for medical or pharmaceutical use

Package ● 25kg/200kg plastic drum or 1000kg IBC drum
